AGENDA ITEM TITLE:
Presentation of Enterprise Document Management RFP selected vendor Databank MX. (Spencer Guest, IT Manager)

SITUATION & ANALYSIS:
On January 23rd 2018, the Town Council approved the Town's first technology plan. Within the plan, one of the major initiatives was the implementation of a Town-wide enterprise document management system and workflow system (EDMS). This system was planned to serve a key role to help staff properly handle the large volume of digital and paper information that is currently stored in paper files and Town's server file shares. This information has slowly become more and more difficult to organize, locate and retrieve by staff in a timely fashion. Additionally, the Town has needed a method to digitize the business processes and information routing and approval processes that are used between departments as well as servicing public requests. These needs have prompted MIS to begin the search, evaluation and selection of an enterprise document management system.

An RFP was posted and opened on February 10th, 2018 and closed on March 22nd. There were 10 total vendors that submitted proposals with 9 complete and valid submissions that were received. MIS did an exhaustive comparison based on a list of over 50+ comparative factors which allowed for the selection of 4 finalist vendors with the highest over all scoring. In accordance with the technology plan, a Technology Committee of 12 staff members was established to review these 4 finalist vendors. The vendors were asked to prepare an in-depth demonstration based upon a list of 8 common use cases scenarios for the Technology Committee.

After completion of the demonstrations and a final comparative evaluation of these 4 final vendors, a decision by the Technology Committee was reached. The Committee unanimously selected Databank MX and their On Base system proposal. Overall the Committee felt On Base was the best fit for the Town's staff, providing an interface that was viewed to be much easier for everyone to learn and use.

This system would constitute a larger IT investment for the Town (see attached Databank EDMS RFP Cost Proposal), but this is understandable considering how central such a software solution will be for the Town
operations. This EDMS system is planned to be utilized by every department and division within the Town and used to service the public as well. Staff is currently working with Databank MX to create a implementation schedule that will allow the Town to create procurement schedule that will work with the Town's budget and fiscal year cycles.

In an effort to provide Council with a better understanding of how the proposed system functions, Databank MX will be conducting a short demonstration of some of the basic system features. This is intended to allow Council to understand the added value provided by this solution to the Town.

Consideration and possible action to adopt Resolution No. 18-1129, amending Resolution No. 08-862, Parks and Recreation Advisory Board Rules, Section 3 Membership, to increase board membership, and amend the residency and quorum requirements.

RECOMMENDED ACTION:
Consideration and possible action to adopt Resolution No. 18-1129, amending the Parks and Recreation Advisory Board Rules.

SITUATION AND ANALYSIS:
Mayor Croft recommends that Council increase the members of the Parks and Recreation Advisory Board from 7 to 9 to provide more support to staff for recreation and events planning. Also, during the Town's most recent recruitment, staff received applications from several qualified persons who live outside the Town limits. Because the Board's Rules limit out-of-town residents to 3, the Appointments Subcommittee could not forward a recommendation for 2 qualified and already-involved applicants. The proposed resolution would eliminate the Town residency requirement and allow members who reside in an area normally served by the Parks and Recreation Department.

AGENDA ITEM TITLE:
Consideration and possible action to appoint applicants to fill new positions on the Parks and Recreation Advisory Board established by Resolution No. 18-1129, dated August 14, 2018 and effective September 13, 2018.

RECOMMENDED ACTION:
Appoint Celia van der Molen and Robert Johnson to the Parks and Recreation Advisory Board, to two-year terms starting July 1, 2018.

SITUATION AND ANALYSIS:
The Council Appointments Subcommittee met on June 14 to review applications for several public bodies. When reviewing the applications for the Parks and Recreation Advisory Board, they were unable to appoint Ms. van der Molen and Mr. Johnson, both qualified candidates, due to the limitations of the Board Rules with regard to both the number of members and members residing outside the Town limits. Subsequently, Mayor Croft expressed a desire to recommend to the Council that the Board be expanded to accommodate the greater number of interested applicants and amend the residency requirements to allow the Council to appoint the best-qualified candidates.

Council will be asked to adopt Resolution No. 18-1129 (agenda item 6b) to amend the by-laws to allow for these 2 provisions. Should Council adopt the resolution and approve appointment of these two applicants, the appointments will become effective in 30 days on September 13.

- FY 2018/2019 budget was 6% higher than last year
- Fund balance: FY 2017/2018 started with $5.7 million in the general fund and ended with $6.46 million. Staff intended to spend some of that overage over the next fiscal year. He projected that water and sewer would break even, but he did not project any increase in construction activity.

3) STUDY SESSION ITEMS

a) Presentation and discussion regarding the 2017 Road 2 North Traffic Impact Study prepared by DOWL Engineering. (Frank Marbury, Public Works Director/Town Engineer)

Mr. Marbury presented the Traffic Impact Study Revision 1:

- **Revision history:** A study was done a couple years ago to assess the intersection’s level of service and roadway improvements needed. DOWL modified the study to include six possible new developments.
- **Existing conditions:** Several places of business off the intersection made for a congested area. Right-of-way was limited and various throughout and needed to be perfected. As an example, some property lines went into parking lots.
- **The study included tables, diagrams, and photographs relating to existing roadway characteristics; existing Road 2 North construction; traffic volumes on Road 2 North and related roads; rule of thumb traffic numbers; and intersections with the proposed improvements.**
- **Levels of service:** Area intersections were currently rated as “A”, “B”, or “C”. Projected traffic from the new developments would greatly diminish the future level of service, with some intersections falling to ratings of “D” or “F”. With the recommended improvements, ratings would increase above “D”, except for Safeway, which had no solution and would remain at “F”.
- **Recommendations included:** (i) For new development and Road 2 North – one turn lane for each development; bike lanes and sidewalks; sight visibility; widening the Road 1 West/Road 2 North and Road 1 East/Road 2 North intersections; (ii) at SR89 and Road 2 North – dedicated right turn lane; update striping; re-time intersection; and (iii) for surrounding roadways – review clear zone and turning radiuses. The end result would be a three-lane roadway with improvements at SR89.
- **Road section standards:** Diagrams described standards per the Unified Development Ordinance and those recommended by the traffic study. Staff will expect developers to implement these standards. He proposed as an alternate keeping the same sections per code, but detaching multi-use pathways and tying those into the 2007 study.
- **Preliminary cost estimates and funding options:** Costs included $3 million to $4 million for roadwork; up to $2 million for right-of-way; unknowns included utility relocations, and water and sewer alone could cost $500,000 or more. Funding options included general funds; bond funds; special improvement district; or impact fee district.

Council and staff discussed the following in more detail:

- **Road 2 North/Road 1 East:** Staff estimated a four-way stop at least; power poles were a problem.
- **Improvements:** If the Town did not build the improvements as one project, it would add left turn lanes with each development. Staff’s focus would be to put each new lane in the right place in the right-of-way to avoid wasting pavement in the future and not having to keep rebuilding it.
- **Future developments:** Council needed to pay attention to future projects that might force major funding to redo the intersection and could cause regional impacts that could not be tied to an individual project.
- **Pending developments:** There were no formal applications for Village North or Hawksnest. Hawksnest was multi-family and residential, Heritage Farms was single family residential, and Heritage Place was platted but not improved. Even without any of these developments,
the improvements recommended in the study would benefit the Town now.

b) Presentation and discussion regarding Brook Apartments, a 6.85 acre project generally located approximately 1,400 feet west of State Route 89 and 620 feet south of West Road 2 North at 740 West Road 1 North. The applicant is proposing to rezone the property from (MR-1) Multi-Family Residential-1 Acre Minimum to (MR-1) Multi-Family Residential-1 Acre Minimum with a Planned Area Development Overlay to increase the density and allow 192 units on site. (Jason Sanks, Development Services Director)

Public Works Director Marbury informed Council that the Brook Apartments applicant had withdrawn their application as of last Friday. Any new development on that property will require a new application.

c) Review and discussion regarding the draft 2018 Strategic Plan. (Cecilia Grittman, Town Manager)

Ms. Grittman presented on this item:
- **Timeline:** Council met to work on the Plan on February 21 and April 4 and will be on the July 24 agenda for adoption.
- **Focus areas included:** water/water companies; OHM Industrial Park/jobs; roads/maintenance and funding; infrastructure and Town utilities; and maintaining a rural community and business-friendly environment.
- **17 action items:** Most of these were related to public works and would be vetted through subcommittees.
- **Future considerations included:** wastewater treatment plant expansion; water storage tank; commercial guidelines for community core; and infrastructure master plan.

Vice-Mayor Turner noted that a few of these were actively being worked on and were moving forward nicely.

Council asked Ms. Grittman to include in the Plan a statement about the code enforcement and cleanup projects. Ms. Grittman related that she will will do that and added that interviews for code enforcement were being held next week; and staff will report to the Council regarding the community outreach plan.

4) **EXECUTIVE SESSION**

a) Council may vote to recess the Special Meeting to hold an executive session pursuant to A.R.S. § 38-431.03(A)(3) for discussion or consultation for legal advice with the Town Attorney regarding the acquisition of a portion of the Prescott water system and pursuant to A.R.S. § 38-431.03(A)(4) for discussion or consultation with the Town Attorney in order to consider the Towns position and instruct the Town Attorney regarding the Towns position regarding a contract with the City of Prescott related to the Town purchasing a portion of its water distribution system that is the subject of negotiations. Individuals are limited to speak for three (3) minutes. The total time for Call to the Public may be up to 30 minutes per meeting. Wayne Moyer, resident near the JC Ranch development, requested that Council reconsider the block wall from Road 4 North to Bumblebee, as landscaping alone would not be sufficient to

Richard Straub, former Acting Public Works Director/Town Engineer, commended staff for job well done on the small police range planning, design, and construction.

Robert Schoon, resident near JC Ranch development, asked Council to reconsider the six-foot wall between JC Ranch and their properties, as sidewalks will promote more pedestrian use in their neighborhood.

John Garden spoke about the Big Chino project’s public meetings, statistics, the ITC’s website, and an informational brochure.

4) RESPONSE TO THE PUBLIC

Response to the Public is an opportunity for the Mayor to inform the public about how Town officials addressed matters raised during Call to the Public at a previous meeting.

5) CURRENT EVENT SUMMARIES AND REPORTS

  ● *Current development reviews included:* 62 new lots in Colonial Villas and 172 one-acre lots in Century Ranch.
  ● *Code compliance statistics:* Cases were up due to rain and weeds. Interviews for a second Code Compliance Officer were scheduled. The new officer will focus on proactive actions and keeping businesses along SR89 in compliance with a soft approach.

6) **CONSENT AGENDA**

Mr. Lerma presented on this item:

- Request: The applicants desired to rezone a portion of their property and divide the lot. They intended to continue current uses in the AR-5 portion and divide the SR-1 portion in the future.
- Current condition: The current lot was being used for animal rescue and hay sales. The General Plan designation was medium density residential. Surrounding uses were residential to the north, south and west.
- Public comment: No one from the public attended the neighborhood meeting or contacted staff with comments.
- Recommendation: The Planning and Zoning Commission and staff recommended approval.

Council asked if the applicants were aware of the restrictions for further subdividing the SR-1 portion of the property. Mr. Lerma stated that they knew they could only divide it into three parcels.

MOVED by Councilmember Jack Miller, seconded by Councilmember Mike Best to adopt Ordinance No. 18-851 to rezone 8.7 acres of a 15.8-acre site from AR-5 to SR-1.

Vote: 6 - 0 PASSED - Unanimously
c) Consideration and possible action to approve a Conditional Use Permit (CUP18-005) to allow a food truck court on CL (Commercial Light) zoned property, 1.38 acres of real property, Assessor's Parcel No. 306-23-057, located approximately 0.25 miles north of the northwest corner of Center Street and State Route 89 intersection at 246 North State Route 89. Owner: 246 Holdings, LLC; Applicant: Bruce Eldredge. (Jason Sanks, Development Service Director)

Recommended Action: Approve a Conditional Use Permit (CUP18-004) for APN 306-23-057 to allow a food truck court on a CL (Commercial Light) zoned property, subject to the four (4) conditions recommended by staff and the Planning and Zoning Commission.

Vote: 6 - 0 PASSED - Unanimously

d) Consideration and possible action to approve a Conditional Use Permit (CUP18-005) to allow the existing single family residential use within the CL (Commercial Light) zoning district for 0.55 acres of real property, Assessor's Parcel No. 306-20-127B, located on the southwest corner of North Road 1 East and East Road 3 North at 985 East Road 3 North. Owners/Applicants: Nathan Peabody and Ana Hurtado. (Alex Lerma, Planner)

Recommended Action: Approve a Conditional Use Permit (CUP18-005) for APN 306-20-127B to allow the existing single family residential use within the CL (Commercial Light) zoning district.

Mr. Lerma presented on this item:

- Request: Approval would place the home in conformance within the commercial zoning district and allow it to be expanded.
- Current condition: A single-family residential home and garage were located on the property. The parcel was surrounded by single-family residential to the north and west.
- History: In 2000, the home was constructed on a 2.20-acre parcel. In December 2005, the property owner recorded a lot split into two 1.20-acre lots. In April 2016, Council adopted an Ordinance to rezone the property to Commercial Light, creating a legal non-conforming use and a condition under which the home could not be expanded. The applicant could have applied for a CUP, or a rezone, which would require a general plan amendment. As the area was commercial, staff supported the CUP option.
- Public comment: One citizen contacted staff with a concern that the property owners would establish a commercial use on the site. While the CL zoning permitted some types of commercial uses, the property owners had no plans to convert to commercial use.
- Recommendation: The Planning and Zoning Commission and staff recommended approval.

Council asked how the CUP would affect the property, as the home was now for sale. Mr. Lerma stated that the CUP would be attached to the property regardless of who owned it.
MOVED by Councilmember Jack Miller, seconded by Councilmember Mike Best to approve a Conditional Use Permit (CUP18-005) for APN 306-20-127B to allow the existing single family residential use within the CL (Commercial Light) zoning district.

Vote: 6 - 0 PASSED - Unanimously

e) Consideration and possible action to award a construction contract to Sunland Asphalt in an amount not to exceed $375,579.41 for the Road 1 East Construction Project. (Frank Marbury, Public Works Director/Town Engineer)

Recommended Action: Award construction contract to Sunland Asphalt in an amount not to exceed $375,579.41 for the Road 1 East Construction Project.

Mr. Marbury on this item:

- **Request**: Staff proposed to use a cooperative contract through Buckeye to hire Sunland to complete Road 1 East.
- **Millings**: Staff had hoped to recycle some existing millings for the project, but found it to be cost prohibitive. As an alternative, Sunland will crush the millings into road base, thus saving $200,000. It was not ideal, but for the cost involved, this was the best way to go.
- **Timeframe**: Staff hoped to complete the project in mid-September.

Council asked if this will complete ADOT’s requirements. Mr. Marbury stated that it would.

MOVED by Councilmember Jack Miller, seconded by Councilmember Mike Best to award construction contract to Sunland Asphalt in an amount not to exceed $375,579.41 for the Road 1 East Construction Project.

Vote: 6 - 0 PASSED - Unanimously

(Cecilia Grittman, Town Manager)

9) ACTION ITEMS RESUMED

After the Executive Session, Council will reconvene the Regular Meeting.

10) ADJOURNMENT

BACKGROUND

SITE DESCRIPTION

The subject property is located approximately .25 mile north of the northwest corner of Center Street and State Route 89 intersection at 246 North State Route 89. The property is accessed by State Route 89. The site is identified with a CL (Commercial Light) zoning district under the Town of Chino Valley UDO (Unified Development Ordinance). The parcel has a General Plan Land Use Designation of Commercial/ Multi-Family Residential under the Town of Chino Valley General Plan Potential Land Use Map. Existing improvements on the property include a two (2) office buildings. The bigger office building is 2,140 sq. ft. in floor area with the smaller building being 1,260 sq. ft. in floor area. (See Figure 1. Aerial Map)
PROJECT HISTORY

The main building on site has been used by MDI Financial Serves, offering financial assistance at this location since 2006. The other building was used as a hair salon from 2011 to 2017. Currently it is being used by Mi Phone Connection for retail. In February 14, 2018, the 5000 Food Unit applied and was issued a business license to locate on site as a mobile merchant food truck on February 14, 2018.

Mr. Eldredge, the property owner, spoke to Staff late March of this year to inquire about locating an additional food truck on site. The location of an additional food truck on site would be considered a food court as interpreted by the Zoning Administrator and confirmed with legal counsel. In addition, Staff defines a food truck as an accessory business to the main business to the site and does not allow a second accessory business. Food trucks and food courts are not clearly defined in UDO (Unified Development Ordinance) and have become a challenge to regulate in the past.

Tiger Express Food Truck was allowed to locate on site as the second food truck on April 4, 2018 with a temporary permit which would need to be renewed every time the permit expired. The 5000 Food Unit is no longer located on site and Tiger Express Food Truck remains as the only food truck on site. Mr. Eldredge has expressed the desire to continue forward and would like to locate up to three (3) food trucks at the location on a permanent basis. Staff has directed the applicant to apply for a Conditional Use Permit.

PROJECT DESCRIPTION

The applicant has applied for a Conditional Use Permit to allow a food court with a maximum of 3 food trailers on property zoned CL (Commercial Light). The applicant believes the site is appropriate for a food court, expressing that the site has a concrete slab with highway frontage access, power and water utilities on the slab. He has further stated that the location has secure trash cans, restrooms and adequate parking for a food court. The food trucks are not proposed to be parked in any portion of the existing parking lot. (See Appendix A: Site Plan)
Staff has been on site on several occasions to inspect the property. The site currently provides twenty one (21) parking spaces for the two existing commercial buildings. The parking spaces are distributed between the two buildings with the larger building with eight (8) spaces and the smaller building with six (6) spaces. The additional seven (7) spaces are provided along the concrete slab. Based on the size of the lot, the only place the makes sense to locate the food trucks would be on the concrete slab located on the front of the property. Locating the food trucks outside the concrete slab will cause interior traffic flow issues and might create safety issues.

**SURROUNDING PROPERTIES ZONING AND LAND USES**

The property is located on the State Route 89 commercial corridor, the area is predominantly made up of a mix of commercial and residential uses. **PUBLIC REVIEW PARTICIPATION**

The Town Staff notified property owners within a 300’ radius, resulting in twelve (12) letters to surrounding property owners. Property owners received information regarding the applicant’s request for a CUP in the CL (Commercial Light) zoning district. To date, no responses to those letters have been received by the Town.

The neighborhood meeting was held on May 21, 2018. At said meeting, there were no property owners in attendance. The item will go before the Planning and Zoning Commission on June 5th, 2018.

The item went before the Planning & Zoning Commission as a discussion item on June 5, 2018. Staff provided some general information on the different types of rules and regulation food trucks are enforced by in different municipalities. Staff considers a food truck an accessory use to a primary business. Several food trucks clustered together on one property are considered a food truck court, which was not currently defined in the Unified Development Ordinance, and would be considered a small business.

Most of the concerns that were brought up during the discussion are regulated and enforced by Yavapai Environmental Services, any violations will be cited by County Health, not the Town.

Planning and Zoning Commission unanimously voted for a continuation of the item for consideration and possible action to the regular July 3, 2018 Planning and Zoning Commission Meeting.

The item went before the Planning and Zoning Commission of July 3, 2018. Staff presented general information pertaining to the project and the applicant’s intent to have a food court on site. Staff mentioned that one of the Commissioners raised the concern about accessibility to the proposed foot truck court area during the last meeting. Staff mentioned that they have worked with the applicant and that they would provide a paved surface to connect and smooth out the area between the parking area and the foot truck court area.

One of the other issues that was raised was the amount of food trucks allowed on site. Initially Staff recommended that no more than two food trucks be allowed on site even though the applicant was requesting three food trucks to be located in the proposed food truck court area. After further discussion, Staffed deemed that if the food trucks that would be located on site are small in nature, up to three food trucks would be subject to development services site plan approval. The Commission forwarded a recommendation of approval to Town Council with several conditions. Vote: 7-0 Passed-Unanimously
The proposed use is not one that is well-defined in the UDO (Unified Development Ordinance). This stated, the Zoning Administrator, with the assistance of legal counsel, has determined that the closest comparable use and related entitlement path would be to seek a Conditional Use Permit for the property to allow a Food Truck Court.

The Town currently has no cluster of food trucks in town that serve as a primary use of the property – in the form of the proposed “court” with outdoor seating and potential entertainment areas in the center of the cluster. After staff review of the proposal and experience with similar facilities, we found that Food Truck Courts are very different than a typical restaurant and are not inherently the same use classification based solely on the fact that food is generated for public consumption. Restaurants are facilities where the following activities are conducted nearly entirely within an enclosed facility:

1) Food preparation with internal air handling systems
2) Patron/Employee interface for the purpose of food ordering, serving, consumption, and clean up
3) Associated refuse processing, then transported to outdoor refuse enclosures
4) Sites are stationary buildings with permanent utility connections, building setbacks, and other development standards

In our interpretation of the code that our legal counsel has reviewed and accepted, we find that a Food Truck Court use in the Light Commercial zoning district is most closely found in the Temporary Use Section, where a Temporary Use Permit is required for similar uses such as Outdoor Retail Sales and Swap Meets. The time limit on a Temporary Use Permit cannot exceed 15 days (by Zoning Administrator Approval), but there is a provision for the Town Council to approve the Temporary Use for as long as it sees fit. An alternative to Temporary Use Permit is the Conditional Use Permit which will allow a longer duration of time for a specific use. The Conditional Use Permit is subject to discretionary approval by Council if the location and context of the site is suitable for the requested use. The Conditional Use Permit process also offers the Town Council the ability to set specific operating parameters and mitigating limits related to hours of operation, allowance of outdoor music, periodic review assessments, and so forth. This said, we believe the use is subject to the Citizen Review process and approval by Town Council – particularly since there are adjacent residential uses to the west. With assistance by legal counsel, Staff had recommended that the applicant apply for a Conditional Use Permit.

The Town currently has (3) three active business licenses for food truck, these food trucks are located within the parking lots of commercial establishments. In the past, Staff have brought a similar item to both Planning and Zoning and Town Council Study Session, at the time that applicant intentions of having a food truck court in a different location with the possibility of locating 4 to 6 independently operated food truck with live music on special occasions. During the study session the following items were discussed:

1) Noise and smells related to the semi-outdoor production of food
2) Noise generated by the outdoor purchase and consumption of food
3) Access and traffic generated by the use, with vendors coming and going on a varied basis
4) Outdoor trash receptacles and maintenance related to disposable dinnerware and food waste
5) Potential noise related to outdoor broadcast and live music related to special events.

Mr. Eldredge request for a food truck court is somewhat different in nature. Mr. Eldredge does not intend to have live music on special occasions and will be strictly dedicated to providing food. Mr. Eldredge
intends to only locate 2 to 3 food trucks on site which will be less impactful regarding noise and traffic compared to having 4 to 6 food trucks.

Based on the site visits Staff has done on site. The parking spaces (21 parking spaces) provided on site will only be sufficient enough to support the two commercial buildings and no more than two food trucks at a time. Furthermore the area designated to the food truck court will only be able to locate up to 3 food truck without the area becoming compacted. Staff recommends that no more than three (3) food trucks be located on site subject to Development Services site plan approval.

Staff and Planning and Zoning Commission recommend that Town Council approve a request for a Conditional Use Permit (CUP18-004) for APN 306-23-057 to allow a food truck court on a CL (Commercial Light) zoned district, subject to the following conditions:

1) All food trucks shall be located in the designated food truck court area shown on site plan.
2) Food trucks shall be limited to up to three (3) food truck subject to Development Services site plan approval.
3) Trash and recycle receptacles shall be provided on site, and must be emptied and maintained.
4) Paved access shall be provided between the parking area and the food truck court.

AGENDA ITEM TITLE:
Consideration and possible action to approve the A-Team Electrical Services, Inc. bid to install lights on the ball field located at the southeast corner of the Recreation Center Complex.

RECOMMENDED ACTION:
Approve the bid from A-Team Electrical Services, Inc. for $286,632.59 to install new ball field lights at the Recreation Center Complex.

SITUATION AND ANALYSIS:
When the fields were constructed at the Recreational Center Complex lights were not installed on two of the fields. However, the Town did run conduit and installed other electrical components for the future lighting of both fields.

A-Team Electrical Services, working with Musco Lighting (the company that installed the lights on the first two fields) met with staff and developed a lighting plan to light the south east corner field. Please review the attached lighting plan. The two poles A1 and B1 are designed to accommodate the future lights in of the field on the southwest corner.

Musco Lighting prepared a cost estimate on the time period required to recoup the additional cost of installing LED lights versus Halide lights. Staff reviewed the information and determined the length of time for the payback to be cost effective does not justify the additional expense and is recommending the Halide lights, which will match our existing lights.

AGREEMENT

NOW, THEREFORE, in consideration of the foregoing introduction and recitals, which are incorporated herein by reference, the following mutual covenants and conditions, and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Town and the Contractor hereby agree as follows:

1. Term of Agreement. This Agreement shall be effective as of the date first set forth above and shall remain in full force and effect until April 18, 2019, unless terminated as otherwise provided in this Agreement or the Prescott Contract.

4. **Compensation.** The Town shall pay Contractor an amount not to exceed $286,632.59 for Materials and Services at the unit rates set forth in the Prescott Contract and as more particularly set forth in the Proposal.

5. **Payments.** The Town shall pay the Contractor monthly, based upon acceptance and delivery of Materials and/or Services performed and completed to date, and upon submission and approval of invoices. Each invoice shall (i) contain a reference to this Agreement and the Prescott Contract and (ii) document and itemize all work completed to date. The invoice statement shall include a record of Materials delivered, time expended and work performed in sufficient detail to justify payment. Additionally, invoices submitted without referencing this Agreement and the Prescott Contract will be subject to rejection and may be returned.

6. **Safety Plan.** Contractor shall provide the Services in accordance with a safety plan that is compliant with Occupational Safety and Health Administration (“OSHA”), American National Standards Institute and National Institute for Occupational Safety and Health standards. The Town reserves the right to request a safety plan following such notification.

7. **Records and Audit Rights.** To ensure that the Contractor and its subcontractors are complying with the warranty under Section 8 below, Contractor’s and its subcontractors’ books, records, correspondence, accounting procedures and practices, and any other supporting evidence relating to this Agreement, including the papers of any Contractor and its subcontractors’ employees who perform any work or services pursuant to this Agreement (all of the foregoing hereinafter referred to as “Records”), shall be open to inspection and subject to audit and/or reproduction during normal working hours by the Town, to the extent necessary to adequately permit (i) evaluation and verification of any invoices, payments or claims based on Contractor’s and its subcontractors’ actual costs (including direct and indirect costs and overhead allocations) incurred, or units expended directly in the performance of work under this Agreement and (ii) evaluation of the Contractor’s and its subcontractors’ compliance with the Arizona employer sanctions laws referenced in Section 8 below. To the extent necessary for the Town to audit Records as set forth in this Section, Contractor and its subcontractors hereby waive any rights to keep such Records confidential. For the purpose of evaluating or verifying such actual or claimed costs or units expended, the Town shall have access to said Records, even if located at its subcontractors’ facilities, from the effective date of this Agreement for the duration of the work and until three years after the date of final payment by the Town to Contractor pursuant to this Agreement. Contractor and its subcontractors shall provide the Town with adequate and appropriate workspace so that the Town can conduct audits in compliance with the provisions of this Section. The Town shall give Contractor or its subcontractors reasonable advance notice of intended audits. Contractor shall require its subcontractors to
comply with the provisions of this Section by insertion of the requirements hereof in any subcontract pursuant to this Agreement.

8. **E-verify Requirements.** To the extent applicable under ARIZ. REV. STAT. § 41-4401, the Contractor and its subcontractors warrant compliance with all federal immigration laws and regulations that relate to their employees and their compliance with the E-verify requirements under ARIZ. 12. **Agreement Subject to Appropriation.** The Town is obligated only to pay its obligations set forth in this Agreement as may lawfully be made from funds appropriated and budgeted for that purpose during the Town’s then current fiscal year. The Town’s obligations under this Agreement are current expenses subject to the “budget law” and the unfettered legislative discretion of the Town concerning budgeted purposes and appropriation of funds. Should the Town elect not to appropriate and budget funds to pay its Agreement obligations, this Agreement shall be deemed terminated at the end of the then-current fiscal year term for which such funds were appropriated and budgeted for such purpose and the Town shall be relieved of any subsequent obligation under this Agreement. The parties agree that the Town has no obligation or duty of good faith to budget or appropriate the payment of the Town’s obligations set forth in this Agreement in any budget in any fiscal year other than the fiscal year in which this Agreement is executed and delivered. The Town shall be the sole judge and authority in determining the availability of funds for its obligations under this Agreement. The Town shall keep Contractor informed as to the availability of funds for this Agreement. The obligation of the Town to make any payment pursuant to this Agreement is not a general obligation or indebtedness of the Town. Contractor hereby waives any and all rights to bring any claim against the Town from or relating in any way to the Town's termination of this Agreement pursuant to this section.

16. Notices and Requests. Any notice or other communication required or permitted to be given under this Agreement shall be in writing and shall be deemed to have been duly given if (i) delivered to the party at the address set forth below, (ii) deposited in the U.S. Mail, registered or certified, return receipt requested, to the address set forth below or (iii) given to a recognized and reputable overnight delivery service, to the address set forth below:

The Contractor herein acknowledges that delays and disruptions may, and in all likelihood, will occur due to other work. The Contractor’s bid shall be deemed to have recognized and included costs arising from and associated with other work in the project area disclosed by the Contract Documents or which would be apparent to an experienced contractor exercising due diligence during inspection of the project documents, the question and answer session in the pre-bid process or during site inspection. No payment will be made for any delays or disruptions in the work schedule that are wholly the fault of the contractor, its agents, employees or any of the contractor’s subcontractors. In the event that the contractor encounters delay or disruption in the project schedule due to factors not wholly the fault of the contractor or within the contractors control then the Contract may be adjusted pursuant to the Delay’s and Extension of Time provisions of this Contract and a timely request submitted for Contract Amendment. Failure to submit a timely request for Contract Amendment shall be deemed a waiver of any entitlement to additional compensation.

ARTICLE XI – BONDS (if applicable)

A. On or before the execution of the contract, the Contractor shall obtain in an amount equal to the full contract price a performance bond pursuant to ARS Section 34-222, conditioned upon the faithful performance of this contract in accordance with the plans, specifications and conditions herein. ARTICLE XII – MISCELLANEOUS

A. The parties hereto expressly covenant and agree that in the event of a dispute arising from this Agreement, each of the parties hereto waives any right to a trial by jury. In the event of
litigation, the parties hereby agree to submit to a trial before the Court. The Contractor further agrees that this provision shall be contained in all subcontracts related to the project, which is the subject of this Agreement.

B. The parties hereto expressly covenant and agree that in the event of litigation arising from this Agreement, neither party shall be entitled to an award of attorney fees, either pursuant to the Contract, pursuant to ARS Section 12-341.01 (A) and (B), or pursuant to any other state or federal statute, court rule, case law or common law. The Contractor further agrees that this provision shall be contained in all subcontracts related to the project that is the subject of this Agreement.

C. Any notices to be given by either party to the other must be in writing, and personally delivered or mailed by prepaid postage, at the following addresses:

Pam Risaliti, C.P.M, CPPB  
Contract Specialist  
City of Prescott  
432 N. Virginia  
Prescott, AZ  86301

D. This Agreement is non-assignable by the Contractor unless by subcontract, as approved in advance by the City.

E. This Agreement shall be construed under the laws of the State of Arizona.

F. This Agreement represents the entire and integrated Agreement between the City and the Contractor and supersedes all prior negotiations, representations or agreements, either written or oral. This Agreement may be amended only by written instrument signed by both the City and the Contractor. Written and signed amendments shall automatically become part of the Agreement, and shall supersede any inconsistent provision therein; provided, however, that any apparent inconsistency shall be resolved, if possible, by construing the provisions as mutually complementary and supplementary.

G. In the event any provision of this Agreement shall be held to be invalid and unenforceable, the remaining provisions shall be valid and binding upon the parties. One or more waivers by either party of any provision, term, condition or covenant shall not be construed by the other party as a waiver of a subsequent breach of the same by the other party.

H. INDEMNIFICATION: To the fullest extent permitted by law, the Contractor shall defend, indemnify and hold harmless the City, its agents, representatives, officers, directors, officials and employees from and against all claims, damages, losses and expenses (including but not limited to attorney fees, court costs, and the cost of appellate proceedings), relating to, arising out of, or alleged to have resulted from the acts, errors, mistakes, omissions, work or services of the Contractor, its employees, agents, or any tier of subcontractors in the performance of this Contract, Contractor’s duty to defend, hold harmless and indemnify the City, its agents, representatives, officers, directors, officials and employees that arise in connection with any claim, damage, loss or expense that is attributable to bodily injury, sickness, disease, death, or injury to, impairment, or destruction of property including loss of use resulting there from, caused by any acts, errors, mistakes, omissions, work or services in the performance of this Agreement including any employee of the Contractor or any tier of subcontractor or any
other person for whose acts, errors, mistakes, omissions, work or services the Contractor may be legally liable.

I. No oral order, objection, claim or notice by any party to the other shall affect or modify any of the terms or obligations contained in this Agreement, and none of the provisions of this Agreement shall be held to be waived or modified by reason of any act whatsoever, other than by a definitely agreed waiver or modification thereof in writing. No evidence of modification or waiver other than evidence of any such written notice, waiver or modification shall be introduced in any proceeding.

J. INSURANCE: Contractor and subcontractors shall procure and maintain until all of their obligations have been discharged, including any warranty periods under this Contract are satisfied, insurance against claims for injury to persons or damage to property which may arise from or in connection with the performance of the work hereunder by the Contractor, his agents, representatives, employees or subcontractors.

The insurance requirements herein are minimum requirements for this Contract and in no way limit the indemnity covenants contained in this Contract.

The City in no way warrants that the minimum limits contained herein are sufficient to protect the Contractor from liabilities that might arise out of the performance of the work under this Contract by the Contractor, his agents, representatives, employees, or subcontractors. Contractor is free to purchase such additional insurance as may be determined necessary.

Additional Insurance Requirements: The policies shall include, or be endorsed to include, the following provisions:

2. The Contractor's insurance coverage shall be primary insurance and non-contributory with respect to all other available sources.

Notice of Cancellation: With the exception of a ten (10) day notice of cancellation for non-payment of premium, any changes material to compliance with this contract in the insurance policies above shall require a thirty (30) day written notice.

If funds are not allocated and available for the continuance of this Agreement, this Agreement may be terminated by the City at the end of the period for which the funds are available. No liability shall accrue to the City in the event this provision is
exercised, and the City shall not be obligated or liable for any future payments as a result of termination under this paragraph.

THIS ENDORSEMENT CHANGES THE POLICY. PLEASE READ IT CAREFULLY.

ADDITIONAL INSURED - OWNERS, LESSEES OR CONTRACTORS - AUTOMATIC STATUS WHEN REQUIRED IN CONSTRUCTION AGREEMENT WITH YOU

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

A. Section II - Who Is An Insured is amended to include as an additional insured any person or organization for whom you are performing operations when you and such person or organization have agreed in writing in a contract or agreement that such person or organization be added as an additional insured on your policy. Such person or organization is an additional insured only with respect to liability for "bodily injury", "property damage" or "personal and advertising injury" caused, in whole or in part, by:
   1. Your acts or omissions; or
   2. The acts or omissions of those acting on your behalf;

   In the performance of your ongoing operations for the additional insured.

   However, the insurance afforded to such additional insured:
   1. Only applies to the extent permitted by law; and
   2. Will not be broader than that which you are required by the contract or agreement to provide for such additional insured.

A person's or organization's status as an additional insured under this endorsement ends when your operations for that additional insured are completed.

B. With respect to the insurance afforded to these additional insureds, the following additional exclusions apply:

This insurance does not apply to:

1. "Bodily injury", "property damage" or "personal and advertising injury" arising out of the rendering of, or the failure to render, any professional architectural, engineering or surveying services, including:
   a. The preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders or drawings and specifications; or
   b. Supervisory, inspection, architectural or engineering activities.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by that insured, if the "occurrence" which caused the "bodily injury" or "property damage", or the offense which caused the "personal and advertising injury", involved the rendering of or the failure to render any professional architectural, engineering or surveying services.
2. "Bodily injury" or "property damage" occurring after:
   a. All work, including materials, parts or equipment furnished in connection with such work, on the project (other than service, maintenance or repairs) to be performed by or on behalf of the additional insured(s) at the location of the covered operations has been completed; or
   b. That portion of "your work" out of which the injury or damage arises has been put to its intended use by any person or organization other than another contractor or subcontractor engaged in performing operations for a principal as a part of the same project.

C. With respect to the insurance afforded to these additional insureds, the following is added to Section III - Limits Of Insurance:

The most we will pay on behalf of the additional insured is the amount of insurance:

1. Required by the contract or agreement you have entered into with the additional insured; or

2. Available under the applicable Limits of Insurance shown in the Declarations;

whichever is less.

This endorsement shall not increase the applicable Limits of Insurance shown in the Declarations.

AGENDA ITEM TITLE:
Consideration and possible action to approve the expenditure of approximately $900.00 for the purchase of United States flags to line State Route 89 from where they terminate north of Road 2 North to Perkinsville Road.

RECOMMENDED ACTION:
Approve the expenditure of approximately $900.00 for the purchase of United States flags to line State Route 89 from where they terminate north or Road 2 North to Perkinsville Road.

SITUATION AND ANALYSIS:
Jeff Champ, from Farmer's Insurance, approached the Council in Call to the Public at the 7/24/18 Council meeting and challenged the Council to participate in increasing the number of United States flags that are lining State Route 89 in Chino Valley. Chino Valley's American Legion lines part of State Route 89 with American flags on major national holidays.

Jeff Champ is interested in extending the flag placement north to the Perkinsville round-about. He is willing to pay 50% (one-half) of the cost that the American Legion provided as the estimate. Total to line both sides of the highway is approximately $1,792.00, with Mr. Champ's half and the Town's half being approximately $896.00

Town Council and Town staff would like to challenge the community - businesses, organizations, and citizens, to participate and continue to line additional flags north and south on State Route 89, to demonstrate our patriotism and loyalty to our nation.

Staff recommends that Council support the initiative and challenge given by Mr. Champ, and fund the additional flags. If Council supports the idea, staff will work with the Legion and Mr. Champ to ensure this is done in a timely fashion.
