Vice-Mayor Granillo called the meeting to order at 6:00 p.m. and led the Pledge of Allegiance.

2) INTRODUCTIONS, PRESENTATIONS, AND PROCLAMATIONS

a) Presentation and update from Thomas Stultz, Yavapai Regional Transit Manager, regarding the Paulden Plunge.

Thomas Stultz, Yavapai Regional Transit (YRT), presented the following:

- The Paulden Plunge was YRT’s premier event providing transportation and admission to the pool for children that didn’t have a chance to get out and socialize. It was a good program for the children and sometimes they brought their parents, they shop and dine in Chino, go to Senior Center, etc.
- YRT had a small amount of funds left from last year as they faced a few challenges with the opening late, and there were no children booked for the last week.
- He was asking for support as had been given last year in the sum of $3,000. The program had also been supported by the Kiwanis Club, Elks, and other local agencies.

Mr. Stultz and Council discussed the following:

- Council asked how many kids were involved in the program. Mr. Stultz was expecting about 400. In 2019 it was just under 400. 2022 was a little less due to the issues mentioned. The program would provide service for eight full weeks, four days a week, Monday, Tuesday, Thursday, and Friday.
b)  Presentation and update from John Courtis, Interim Volunteer Director for the Chino Valley Area Chamber of Commerce.

John Courtis, Interim Volunteer Director for the Chino Valley Area Chamber of Commerce, presented the following:

- He wanted to give an update on the last seven weeks.
- He was working to evolve the chamber to a “3C chamber.” The three C’s stood for Convener of engaged individuals, Champion of small business, and Conveyor of great ideas for the community.
- Since fixing the office’s signage they had seen increased traffic in the office and calls to the office from people looking for information and asking about events.
- They had also changed their branding and messaging to promote the fact that it was the town’s official visitor center. Their revenues had increased due to some of the small changes they had made.
- In addition to providing clearer signage, they installed a rack out front with visitor information for when no one was in the office. 18 guides had been picked up this month alone. Six visitors had come in the office asking about area events.
- Mr. Courtis was working to create a culture of gratitude. They created a pull up sign for events that included the chairman circle, Town logo, Daily Courier, and the Arizona Hometown Radio Group, etc.,
- Most members of the town were giving money to the Chamber in an inspirational fashion, not transactional. Smaller business might be more transactional. The Chamber was aiming to serve both.
- There had also been work done on the website including the addition of logos of partners’ businesses that go straight to their websites.
- Mr. Courtis stated that they would be building a board of directors with business people. He had already some nice yes’s.
- He was also working on maintaining compliance with bylaws to maintain their 501(c)(6) status.
- Mr. Courtis was working on creating and promoting an annual list of local events. The Chamber would be doing fewer events and focusing on quality, not quantity.
- There was cleanup work to be done on the member list and database which had almost 400 members in it, but there were only 164 paying members.
- The Chamber was preparing to publish an official visitors guide. The Courier offered a profit-sharing program. The guide would include a page for the Town and a letter from the Mayor.
- Mr. Courtis planned to hand over a stable organization to the new director, but would continue on as an advisory board member.
- He was also working on moving the Arizona Tourist Information sign.

c)  Introduction and presentation of Town of Chino Valley new employee hires.

Laura Kyriakakis, HR Director, presented the following:

- The last time she had presented to Council was November 8, 2022 and it had been a busy recruitment year.
- Since last time the Town had onboarded 13 new team members, 22 total in this fiscal year.
Ms. Kyriakakis presented new employees, described their positions, and provided their start dates.

They were now a corporation, had their tax ID, and were filing for their 501(c)(3) which they hoped to have completed this week. The now had 90 members, and more families were reaching out to participate. 22 people showed up today to play, but there were only four courts which could accommodate 16 people, and they were continuing to average that on weekdays. They were seeing 24 to 26 on the weekends.
- She introduced the association’s board members.

Jeff Crandel, Chino Valley Historical Society (CVHS), presented the following:

- He had seen in the tentative town budget that there was some appropriation for the Historical Society. He asked for careful consideration for that. The Historical Society had been open every Saturday in all of April and May, and had 200 people come through to view the facilities and displays. The Society had also brought in outside speakers for their meetings and had 35 to 40 attendees at the meetings. Mr. Crandel believed that CVHS was a valuable asset and resource to the Town, culturally and educationally. The funds would help to improve their facilities and programs and they would appreciate the support.

Rachelle Fernow presented the following:

- Thanked the Councilmembers who had expressed condolences to her over the last few months.
- The Prescott Area Association of Realtors would be hosting a food drive in front of Safeway from 9:00 a.m. to 3:00 p.m. They would be accepting food goods, cash donations, and gift certificates and 100% of the proceeds would be going back to the Chino Valley Food Bank. Ms. Fernow would be volunteering from 11:00 a.m. to 1:00 p.m.
- Last week the combine had come by her home to mow the right of way and it shredded whatever garbage was along the right-of-way and she had to do a lot of cleaning up. She was requesting that someone go ahead of the combine to clean up litter, or organize a volunteer group to clean up litter before the combine came through. She stated that she was happy to assist however she could.

- This item was for the lighting district in Brightstar which was divided into three separate districts. The appendix broke down how much each district was levied. The total for all three was $3,900. MOVED by Vice-Mayor Eric Granillo, seconded by Councilmember Tom Armstrong to continue this item to the June 13, 2023 Council Meeting.

6 - 0 PASSED - Unanimously

b) Public hearing, consideration, and possible action regarding the "Homestead" Preliminary Plat located at the Northeast corner of West Road 3 South and South Road 1 West from applicant Jay Bates, on behalf of Right Homes.

Will Dingee, Assistant Development Services Director, presented the following:

- This was a request for approval for the Homestead Subdivision Preliminary Plat. This was the second time the project was coming before Council. The first time was for the rezone of the parcel. The applicant was in attendance.
- The property was 20 acres in size, zoned Single Family Residential, one acre minimum, and located at the northeast corner of West Road 3 South and South Road 1 West. The proposal consisted of 15 one acre lots with a newly created east/west roadway, dubbed Farley Way. There would be drainage tracts and road improvements along South Road 1 West and landscaping along South Road 1 West. The property would be served by well and septic
- Staff received one letter of opposition citing water, road conditions, and traffic as concerns.
- Planning & Zoning provided a recommendation of approval with the conditions of approval found in attachment a.

Council and staff discussed the following:

- Council inquired how the road would hold up to service trucks going to the end of the road and turning around. Frank Marbury, Town Engineer, stated that street would be designed to accommodate trucks, school buses, and emergency vehicles.
- Council inquired if the road would be dedicated to the Town. Mr. Marbury stated that the cul-de-sac would be a public street.
- One councilmember stated that the General Plan talked about the percentage of manufactured homes and asked if this subdivision was included in the 44% mentioned? Will Dingee stated that number was specific to currently placed homes.
Jay Bates, Applicant, and Council discussed the following:

- Council inquired about the ability to hook up to Prescott water. Mr. Bates stated that it was too far, as it only reached Road 2 South. Mr. Bates stated that he had obtained an assured water supply certificate from the State.
- One councilmember made mention of condition number four, which stated that new buyers would sign a noise and odor disclosure acknowledging the nearby slaughterhouse. Mr. Bates stated a lot of people had moved in and out of the area a lot and it hadn’t seemed to be an issue yet.

VM Granillo opened the Public Hearing.

Rachelle Fernow presented the following:

- She stated that, to her knowledge, none of the existing homes had to sign a disclosure of noise or smell which she thought could be a deterrent to selling the properties.
- In the previous budget meetings, Joe Duffy had talked in depth about the Town’s waste water management plant losing money, and idea was to increase fees on those tied into those utilities. She felt there was a flaw in the UDO regarding the distance to tie into Town utilities. She stated there was a trend with this specific developer in that his properties used to be 1,200 sq. ft. lots, but now they were all one acre with the intent of avoiding tying into Town services. She didn’t see how the Town would survive if developers were not held accountable to tie into infrastructure. She stated the Town was borrowing from the General Fund to pay for the deficit in the wastewater treatment plant and the cost would now be passed onto the citizens who were already struggling. She stated developers could afford to tie in. She stated the flaw in the UDO needed to be addressed.

Jay Bates, applicant, presented the following:

- As far as the disclosure, he stated that was on him and his company and that no one else could dictate if they should or shouldn’t as they were taking the risk.
- He stated that he built 75 houses in Chino and hooked up to sewer and water a lot. It was just a matter of the cost being effective. If utilities were 600 to 1,000 feet away, the cost was prohibitive. There was a proposed project on Road 2 North which would be 70 homes and they would all be on Town sewer and water.

VM Granillo closed the Public Hearing.

MOVED by Councilmember John McCafferty, seconded by Vice-Mayor Eric Granillo to approve the preliminary plat.
