This questionnaire was developed by the Town of Chino Valley in order to:

1. Determine your need for compliance with federal and state mandated Community-Right-to-Know laws. These laws (a) prohibit the issuance of a Certificate of Occupancy to a business that will handle hazardous materials unless the business has met or is meeting the requirement to file a chemical inventory disclosure packet with appropriate agencies; (b) may require the filing of a Risk Management Plan with appropriate agencies if the facility will handle certain regulated substances; (c) govern the permitting of a facility handling certain regulated substances to be constructed within 1,000 feet of a school (K-12), general acute care hospital or long term care facility.
2. Determine your need for compliance with state mandated ADEQ (Arizona Department of Environmental Quality) laws.
3. Determine your need for compliance with current Fire and Building Code requirements.
4. Determine your need for compliance with state mandated hazardous materials regulations.

To determine whether your business is subject to any of these regulations, please read, complete and sign this questionnaire.
