

Midway Drive/Sweet Valley Road to United Way | Paulden

WIDENING AND PAVEMENT IMPROVEMENT PROJECT

OVERVIEW

The Arizona Department of Transportation in conjunction with the Federal Highway Administration is planning to widen State Route 89 to accommodate dedicated north- and southbound right-turn and left-turn lanes at the post office and gas station complexes in Paulden. Additionally, the widening will include right-turn lanes on southbound State Route 89 at Midway Drive/Sweet Valley Road, a northbound left-turn lane at Paulden's RV Park and United Way, and a northbound right-turn lane at the post office. The project will occur within ADOT right of way and adjacent to private lands.

WHAT TO EXPECT

During construction, ADOT will maintain one through lane of traffic except during occasional short-term closures. Flaggers will be on site when temporary closures are required. ADOT will maintain access to homes and businesses throughout construction.
